

pipetman®

M96

Simplified High-Throughput 96-Channel Pipetting

Reduce variability, save time, and standardize microplate workflows with PIPETMAN® M96, a motorized pipette designed for speed, accuracy, and confidence.

Consistent, Reliable Results Across All Wells

- **Excellent reproducibility** eliminates variability caused by repetitive pipetting tasks
- **Reliable results** even at high throughput

Easy and Fast 96-Channel Pipetting

- Motorized 96-channel pipetting for **rapid microplate workflows**
- **Reduces hands-on time** and repetitive manual steps
- Create **your own protocols** to fit your application

Intuitive Design with No Added Consumable Costs

- Compatible with a large variety of SLAS-standard labware
- Works with standard PIPETMAN® DIAMOND Tips — **no specialty tips required**
- Large touchscreen guides users through every step

An ideal solution for plate pipetting in PCR/qPCR, ELISA, cell culture, and drug screening.
